Education

DE LA SALLE UNIVERSITY MANILA

Bachelor of Science in Computer Science Major in Software Technology
CGPA 3.577, Cum Laude, Jose Rizal Honor Society (Consistent First Honor Deans Lister).

Manila, Philippines
2021 - 2025

MAKATI GOSPEL CHURCH NEW LIFE CHRISTIAN ACADEMY

Science, Technology, Engineering, and Mathematics (STEM)
Consistent Honors Awardee.

Taguig, Philippines
2015-2021

Experience

Thinking Machines Data Science Inc.

Data Operations Engineer Intern

BGC, Taguig
June 2024 - August 2024

- Developed in-house ETL software and comprehensive support ticket dashboard using Python, Alembic, PostgreSQL, Dagster, and Pydantic, enhancing team productivity and client service delivery.
- Engineered a data pipeline to extract and ingest Jira data into a Dockerized application with BigQuery storage, implementing a monitoring dashboard for ticket deadlines, age, resolution time, and summary tracking.
- Assisted Customer Success Managers in monitoring team Jira tickets and ensuring Service Level Agreement adherence while contributing to a high-visibility Christmas Greeter 2D pixel game proof of concept.

Shopee Philippines Inc.

Operations Product Intern

Podium, Mandaluyong
November 2024 - February 2025

- Led comprehensive User Acceptance Testing initiatives for 16 projects across Shopee Games, Shopee Seller Center, and Shopee Affiliate platforms, ensuring software quality through systematic test case execution and defect tracking.
- Participated in product demonstration meetings, presented verified changes to stakeholders and clients, and gathered feedback for future iterations while creating detailed documentation for weekly business PIC meetings.

International Netherlands Group (ING)

Retail Technology Intern

One Ayala Tower, Makati
March 2025 - September 2025

- Created 3 comprehensive Grafana dashboards for team services, averaging 25 panels per board, featuring core metrics including request totals, success/failure rates, error breakdowns, and analytical insights.
- Developed production-ready endpoints for Registry Notes service with complete unit testing coverage, successfully deploying all code to the production environment after thorough testing and validation.
- Became the first intern in team history to participate in the Lifecycle Management Cycle for major services, updating dependencies and removing security vulnerabilities for production deployment.
- Designed 3 technical infographics documenting team learnings and knowledge transfer materials covering new libraries, pipelines, and infrastructure technologies.
- Actively participated in all Agile team operations, including daily SCRUM meetings, sprint planning sessions, and retrospectives.

Freelance Development Projects

Freelance

Online
August 2024 - September 2024

- Commissioned for a Chrome Extension to extract schedules from the UP Diliman student portal, supporting .ics, .csv, and .json formats. Implemented HTML parsing in JavaScript and worked with Google Extension manifest to ensure smooth functionality.
- Developed a PDF Quotation reader to extract Project Cost and Screen Size data from United Neon project quotations, processing 63 project quotations and calculating Per Square Meter costs and ROI metrics.
- Published the Chrome extension on the Google Chrome Web Store, providing free access to all UP Diliman students, and delivered scalable automation solutions enhancing efficiency in cost analysis and decision-making.

University Projects / Relevant Courses

De La Salle University, Manila

Computer Science Major in Software Technology Student

2023 - 2025

- **2023: Software Engineering (CSSWENG)** - Served as Quality Assurance Tester for remote time clock system development using Nuxt, Vue, Tailwind, and MongoDB. Collaborated in an Agile team environment through daily scrums and weekly retrospectives, delivering a fully integrated system for shift management and salary computation.
- **2024: Mobile Development (MOBDEVE)** - Developed Android notes application using Kotlin and Java in Android Studio, featuring AI integration for smart note searching and content queries, Firebase Cloud storage, and user authentication systems.
- **2024: Advanced Databases (STADVDB)** - Designed and implemented a distributed database system using Galera Cluster for the SeriousMD healthcare dataset, achieving strong consistency and high availability through a certification-based replication strategy.
- **2025: Undergraduate Thesis** - Developed FuseVault, a blockchain-based framework integrating IPFS via Web3.Storage and MongoDB for scalable, decentralized data storage. Achieved 0.09 average TPS with 21.6-second latency, 3.5× throughput improvement over baseline, and 82.6% overall operational success rate with enterprise-grade reliability.
- **2025: Computer Innovation (CCINOV8)** - Co-developed DiagnoAssist, an AI-powered clinical assistant for Filipino outpatient doctors, converting voice conversations to structured SOAP notes and supporting Taglish communication. Achieved market validation with 118 website engagements, 23 physician pre-orders.

Leadership and Activities

DLSU ENGLICOM

De La Salle University, Manila

Executive Vice President for Operations

December 2021 - August 2025

- **2021-2022:** Started as a Finance Trainee and earned the Outstanding Finance Trainee Award for exceptional performance in handling documents and assisting with Finance processes.
- **2022-2023:** Promoted to Committee Coordinator for Finance, then Assistant Vice President for Finance during Term 2. Coordinated logistics for the Chinese New Year 2023 flagship event with 1,060 participants, managing speakers, performers, food suppliers, and university office coordination.
- **2023-2024:** Served as Vice President for the Finance Committee, leading a team of 27 officers and managing organizational funds exceeding PHP 1.5 million, generating PHP 411,750.98 in revenue during Term 1.
- **2024-2025:** Ended as Executive Vice President for Operations, part of the organization's "Big 4" leadership team responsible for major organizational decisions and overseeing all backend operations, including Documentation and Finance divisions.
- **Achievements:** Consistently achieved top organizational rankings, including Top 1 overall in Operations, Documentation, and Finance divisions for Terms 1-2 AY 2024-2025, and sustained Top 3-4 Finance rankings among all De La Salle University organizations AY 2023-2024.

Computer Batch 2T25 (CATCH2T25)

De La Salle University, Manila

Project Management Chairperson

January 2023 - August 2023

- Oversaw project management activities, including documentation, planning, and monitoring of all events.
- Directed committee operations, ensuring regular progress meetings and effective task delegation.
- Successfully executed and documented 10 events for the student government with a team of 8 officers.

Skills & Interests

Technical: Python, C, Java, Javascript, SQL, HTML, CSS, Handlebars, MongoDB, MySQL, Apache Nifi, OBS, Jupyter, WSL2, Dagster, Docker, PostgreSQL, Google BigQuery, Google AppEngine, Kotlin, Android Studio, Ubuntu, Grafana, Spring Boot, IPFS, Firebase, Kotlin

- [Deep Learning Specialization](#) (DeepLearning.AI Certification)
- [Google Cybersecurity Certificate](#) (Google Certification)

Language: Fluent in English; Conversational in Tagalog

Soft Skills: People Management, Teamwork, Project Management, and Communication.

Interests: Video Games, Football, Golf, Travelling, Coffee, Data Science, Backend, Machine Learning
